

## DEFENSE LOGISTICS AGENCY

DLA AVIATION PHILADELPHIA  
700 ROBBINS AVENUE  
PHILADELPHIA, PENNSYLVANIA 19111-5098

### MEMORANDUM FOR THE RECORD

SUBJECT: Amendment to the Class Justification and Approval (J&A) for Other Than Full and Open Competition, Contract SPRPA1-14-D-002U

DLA Aviation currently acquires sole source consumable parts, Depot Level Repairables (DLRs) and performance based supply chain management support of aircraft and systems manufactured by The Boeing Company under the Boeing Captains of Industry contract, SPRPA1-14-D-002U. The initial requirement was awarded 17 September 2014 with a priced five year base period and one unpriced option period of five years. The contract covers all sole source consumables, DLRs and Depot level support for Boeing platforms including the AV-8B, C-17, CH-47, F/A-18, F-15, KC-135, B-52, B-1, E-3, AGM-84 and AGM-86 programs. As explained in original Class J&A (attached), the support includes wholesale supply chain management and logistics support, inventory management, maintenance planning, configuration management and sustaining engineering associated with these end items.

This amendment to the Class J&A authorizes the addition of the P-8 aircraft program to the above list of covered platforms for the remaining term of the contract base period and the option period, if exercised. The estimated total dollar value of P-8 aircraft support over the performance period is (b) (5) which, in combination with the estimated total dollar value of the original J&A (b) (5), brings the total estimated dollar value of requirements covered by this approval to (b) (5). Actual requirements for the additional scope will be negotiated and added to the basic contract at a later date. Individual requirements will be certified sole source to the Boeing Company and synopsized in accordance with FAR 5.201. Items may be proposed by the contractor as commercial or military unique. The Contracting Officer will determine that the cost to the Government is fair and reasonable in accordance with FAR 15.404-1 for any requirements added under this scope. In addition, the approved J&A specifies the contract will be funded by the Defense Working Capital Fund (DWCF). However, various Service funds (Appropriated, USAF Working Capital, Navy Working Capital, etc.) may be used for future requirements included in the Boeing COI effort. The approved J&A also specifies the contract type for the ten year period will be fixed price in nature. While fixed price will remain the primary contract type, cost reimbursable, time and material, or labor hour types may be used for future efforts.

I therefore determine that the anticipated cost to the Government will be fair and reasonable.
